

**QUAD LOCK 360™**

[Click here to see  
Quad Lock 360™  
in action!](#)

Quad Lock 360™ is a **modular range** that gives customers the **flexibility** to build a mount to suit their active lifestyle. Whether it's on the road, on the water, in the air, or even around the home, Quad Lock 360™ offers hundreds of combinations to make life easier.

Quad Lock 360™ products utilise our 360 indexing interface to join together for the perfect mount.

### Why Quad Lock 360™?

360 is in reference to the index feature that connects our system together, consisting of 36x 10° increments. This allows full **adjustability** in a 360° range of movement. 360 also speaks to the flexibility of the system, allowing Quad Lock to be utilised in near universal fashion.

### Will Quad Lock 360™ replace existing Quad Lock mounts?

Whilst this “build your own” approach is a new direction from Quad Lock, we will continue to release application specific mounts & accessories, allowing Quad Lock 360™ to exist complimentary to the rest of our range. More options will be added to the Quad Lock 360™ range over time to open up new markets & enable even more mounting possibilities!

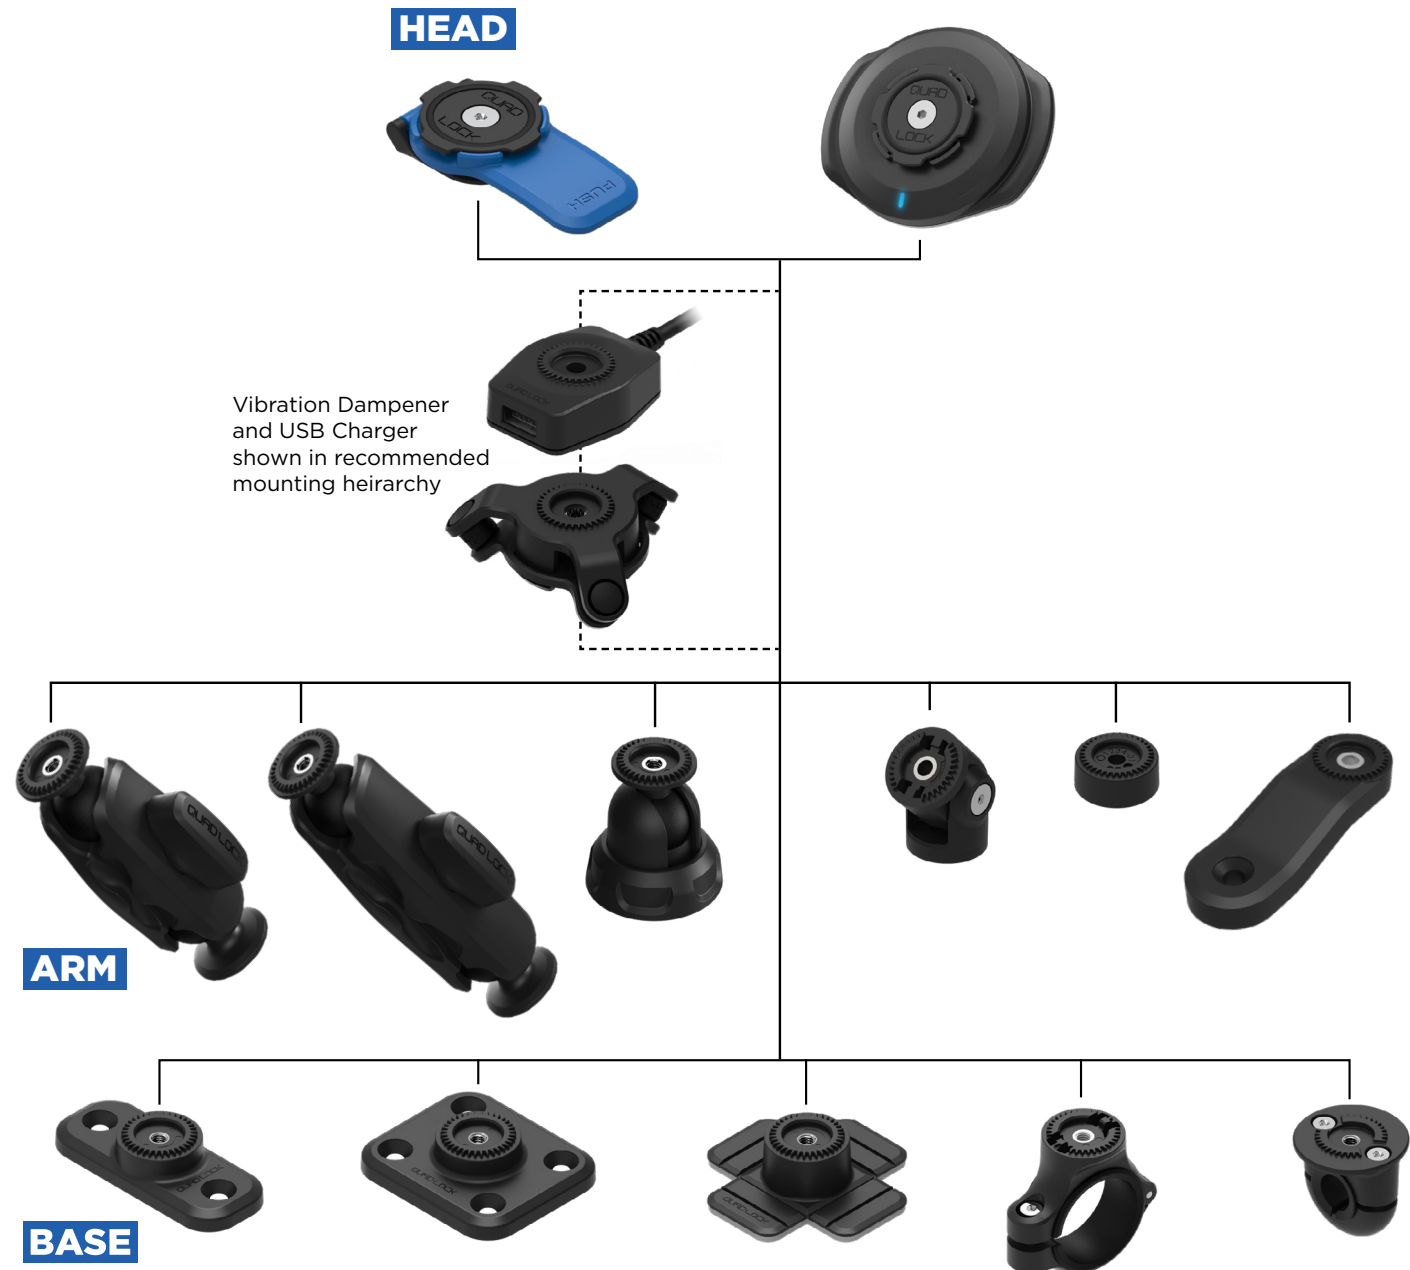

- Motorcycle / Scooter
- Automotive
- Marine / Kayaking
- 4x4 / ATV
- Caravan / RV / Motorhomes
- Aeronautics
- Snowmobiles
- Accessibility
- Music
- & Many More...

At its simplest, Quad Lock 360™ consists of a **HEAD**, an optional **ARM**, and a **BASE**.

All 360 compatible parts can be combined to create the perfect mount to suit the required application.

All Quad Lock Cases & Universal Adaptors are compatible with the Quad Lock 360™ ecosystem.

All Quad Lock 360™ products & compatible accessories will be marked with the **360 Compatible** badge. Any Quad Lock product featuring our 360 indexing interface will be 360 Compatible, including our Weatherproof Wireless Charging Head, Vibration Dampener, Motorcycle USB Charger & Knuckle Adaptor.

Packaging will show clear reference to whether each part is a **HEAD**, an **ARM**, or a **BASE**. Packaging for existing products will also be updated to show the type or product for easy reference, such as a **CASE**, a **MOUNT**, or an **ACCESSORY**.

**HEAD**

### Lever Head

- Dual-Stage locking Mechanism
- Mount device Portrait or Landscape
- Glass-filled nylon construction
- Compatible with all Quad Lock Cases & Universal Adaptors

### Weatherproof Wireless Charging Head

- All the features of the Lever Head
- Up to 10W Wireless Charging
- IP66 Water Resistant
- Aluminium heat-sink
- USB-C input, including new right angled cable
- USB-A power supply is required
- Existing Quad Lock product, new V3 launching for Quad Lock 360™

### Dual Pivot Arm - Small

- 51mm (2") length
- 180° rotation vertically and 360° horizontally
- 180° / 60° rotation at both pivot points
- Glass-Filled Nylon construction
- In-built cable management
- Anti-theft option

### Dual Pivot Arm - Medium

- 75mm (3") length
- 180° rotation vertically and 360° horizontally
- 180° / 60° rotation at both pivot points
- Glass-Filled Nylon construction
- In-built cable management
- Anti-theft option

### Single Pivot Arm

- Rotates through 90° vertically and 360° horizontally
- Glass-Filled Nylon construction

### Knuckle Adaptor

- Rotates through 180° vertically. Locks in place
- Glass-Filled Nylon construction
- Existing Quad Lock product

### Extension Arm

- 50mm length
- Glass-Filled Nylon construction
- Existing Quad Lock product

### 10mm Spacer

- 10mm Height
- Twin Pack
- Glass-Filled Nylon construction
- Existing Quad Lock product

### Flat Rectangle 2 Hole Base

- AMPS hole pattern (diagonal)
- Includes 10mm Spacer
- Glass-Filled Nylon construction
- Suits M5 or 10 gauge countersunk screws (not included)

### Flat Rectangle 4 Hole Base

- AMPS hole pattern
- Includes 10mm Spacer
- Glass-Filled Nylon construction
- Suits M5 or 10 gauge countersunk screws (not included)

### Flexible Adhesive Base

- Mount to slightly curved or flat surfaces
- 3M VHB Adhesive
- Glass-Filled Nylon construction

### Bar Clamp - Medium

- Suits bar Dia. 7/8" (22mm), 1" (25mm), 1-1/8" (28mm) & 1-1/4" (32mm)
- Glass-Filled Nylon construction

### Bar Clamp - Small

- Suits bar Dia. 10mm, 12mm, 14mm & 16mm
- Glass-Filled Nylon construction

**Greater flexibility** than any other system on the market, allowing users to mount with our Dual Pivot arms, our Single Pivot Arm or direct to the base.

Dual Pivot Arms are supplied with both a thumbscrew for **easy adjustability**, or a hex screw for a more streamlined and **theft proof** configuration.

Built in **cable management** on the Dual Pivot Arms.

Preload tension for **easy, single handed** setup on Dual Pivot Arms.
